**CONSTRUCTION AND
CLEANING WASTE**

SEPARATE COLLECTION

METAL:

- large metal pieces
- sheet metal, metal parts
- empty paint cans
- metal-framed furniture.

CLEAN OR SURFACE-TREATED WOOD:

- clean board, wood
- pallets
- pattern plates with low concrete content
- heat-treated wood
- painted or varnished wood
- wood-based panels such as chipboard, plywood, glued laminated timber, parquet, MDF, laminates and haltex
- cabinet frames and doors without glass and insulation (small hinges or angle irons are not a problem).

CLEAN AND DRY CARDBOARD:

- brown kraft paper
- corrugated cardboard, cardboard boxes
- cardboard

Note: Open cardboard boxes, flatten and pack tightly.

BRICK:

- sand-lime and clay bricks
- roofing tiles
- masonry mortar.

IMPREGNATED WOOD:

- pressure treated wood
- nailed, varnished, and painted wood.

CONCRETE WITH IRON:

- Sorted by size and purity. Ask your waste management company for more detailed instructions.
- Must not include stones, sand, or other waste materials.
- Concrete waste is recycled and reused.

ELECTRICAL EQUIPMENT TO SER-POINT,

Pohjolankatu 6,
57230 Savonlinna

- Electric cookers and stoves
- refrigeration equipment, washing machines
- lamps, fluorescent tubes, energy-saving light bulbs
- power tools.

WASTE TO BE TREATED SEPARATELY

ASBESTOS-CONTAINING WASTE (HAZARDOUS WASTE):

- Asbestos must be delivered to the waste station in a tightly packaged form, e.g., in double plastic packaging. Ask your waste management company for more information!
- Minerit, building boards and fibre cement roofing may contain asbestos.
- Asbestos may also be present in pipe insulation, ventilation ducts and tiles.

HAZARDOUS WASTE:

- Waste paint, glue and varnish waste
- wood preservatives and impregnating agents
- solvents such as turpentine, thinner and acetone
- strong detergents and cleaners
- used oil, oily waste, and empty oily cans
- chemicals with a warning label.

PVC PLASTIC (03, VINYL)

PVC plastic waste must be delivered to the Nousiala waste station, where it is collected in a separate collection point.

- Mirrors, windows, and doors with insulation (to be sorted separately at the recycling point)
- insulating wool
- plasterboard
- spring mattresses, upholstered furniture (after separate treatment, the combustible fraction goes to energy recovery)
- flat glass
- porcelain and ceramics
- miscellaneous cleaning waste.

ENERGY WASTE

ENERGY WASTE - INCINERATED

Please note the sizes: the maximum piece size must not exceed 80 x 80 x 80 cm and the longest side dimension must not exceed 80 cm (tarpaulins, hoses, scantlings, etc.).

PLASTICS (01, 02, 04, 05, 06):

- plastic packaging and films, bubble wrap
- foam and cellular plastics, gauzes
- plastic binding bands and cords, lightweight tarpaulins
- plastic tubes, pipes, and hoses (excluding PVC tubes)
- plastic cans, bottles, buckets and bags
- empty plastic silicone tubes
- latex and nitrile protective gloves
- styrofoam, polystyrene, PUR thermal insulators
- urethane sheets.

DIRTY AND WET CARD-BOARD AND PAPER:

- wet and dirty cardboard
- disposable containers and cardboard packaging.

PAPER:

- protective papers and paper protective clothing
- hand towel papers, other tissue papers.

UNUSABLE TEXTILES AND RAGS

WALLPAPER, SHEETS, COVERS

FITTED CARPETS AND PLASTIC MATS (*

ROOFING FELT (*

VINYL FLOORING PLANKS (*

*)Note! piece size
